Applicant's election of claim 7-16 in the reply filed on July 26, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 1-6 to an invention non-elected without traverse. Accordingly, claims 1-6 have been cancelled.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose to form a third inter-layer insulation layer on a structure containing the first capacitor and the first conductive layer, and forming a second capacitor electrically connected to the first conductive layer by passing through the third inter-layer insulation layer on the first conductive layer as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
